Subject: EPA's incoming tour of [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

Hello,

Charlotte Mooney, the Associate Division Director of the Resource Conservation and Sustainability Division (RCSD), in the Office of Resource Conservation and Recovery (ORCR), at the U.S. EPA, has shared with me your contact information. I am contacting you around a planned tour of [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] tire processing facility in [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]], tomorrow, June 10th. I am including below the list of attendees from EPA and the Centers for Disease Control and Prevention (CDC), as well as our general topic areas of interest as we prepare for this tour. I also wanted to see with you if anyone in addition to you from the [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] will be joining us on the tour?

For a very brief background, I wanted to mention that the tour has been organized as part of the *Federal Research Action Plan on Recycled Tire Crumb Used on Playing Fields and Playgrounds* currently being implemented by the EPA, the Consumer Product Safety Commission (CPSC), and CDC (Please see: www.epa.gov/tirecrumb). The tour has been organized in support of the background information component of the Action Plan.

The proposed Agenda for the tour tomorrow includes the following topics:

- History of [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] and company overview
- Screening or inspecting of tires before they are sent to be processed to crumb rubber
- Differences in tires types and processing methods
- Looking in-depth at the ambient process and see the types of system(s) your facility uses for shredding (granulator, cracker, abrasive disk, etc.)

- Quality assurance / quality control measures
- How the material is stored and prepared for shipping to customers, including customer coverage

As for those who will be attending the tour, we have:

- Chris Carusiello, Environmental Engineer – Industrial Materials Reuse Branch, EPA
- Ksenija Janjic, Environmental Protection Specialist – Industrial Materials Reuse Branch, EPA
- Nicole Villamizar, Environmental Protection Specialist —Industrial Materials Reuse Branch, EPA
- Charlotte Mooney, Associate Division Director—Resource Conservation and Sustainability Division, EPA
- Annette Guiseppi-Elie, Supervisory Physical Scientist – National Exposure Research Laboratory, EPA
- Elizabeth Irvin-Barnwell, Epidemiologist, CDC-ATSDR
- Angela Ragin, Branch Chief—Environmental Epidemiology Branch, CDC-ATSDR

Best regards,
Ksenija Janjic
